"CONSTITUTION WATER,"

THE ONLY REMEDY

FOR DISEASES OF THE

Bladder! Kidneys!!

Gravel, Dropsical wellings,

GENITAL DEBILITY, &c

THE ASTONISHING SUCCESS WHICH has attended this INVALUABLE Medicine renders it the most valuable one ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system. In fact, it stands unrivalled as a remedy for the permanent cure of maladies above mentioned, and also

DIABETES,
IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,
GLEET, FLUOR ALBUS,

And in every disease any way connectd with the disorders or decays of the PROCREATIVE FUNCTIONS. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature or impaired by sickness, the unstrung and relaxed organization is at once rebraced, revivified, and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom of an almost idiotic apathy, becomes bright and active; and he goes forth regenerated, conscious of new vigor. The medicine reaches the CONSTITUTION itself, and restores it to its normal condition.

Irritation of the Neck of the Bladder,
INFLAMATION OF THE KIDNEYS, AND
CATARRH OF THE BLADDER,
STRANGUARY AND BURNING, OR PAINFUL
URINATING,
CALCULUS, GRAVEL,
BRICK DUST DEPOSIT, AND
MUCOUS OR MILKY DISCHARGES
AFTER URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases, and you will ever give your praise to

CONSTITUTION WATER!!

Males or Females

Are you troubled with that distressing pain in the small of the back, and through your hips? CONSTITUTION WATER will relieve you like magic.

To Lumber Merchants

—AND—

CONSIGNEES OF SHIPS!

THE UNDERSIGNED AGENTS IN Victoria, and in part Owners of the new Mill situated at Free Port, opposite Seattle, Washington Territory, respectfully invite the attention of parties shipping Cargoes of Lumber abroad to their facilities for furnishing cargoes and loading ships with despatch. Ship Masters and others acquainted with Puget Sound will know that Free Port is an admirable, safe, and commodious harbor, and easier of access than any other port on the Sound. There is also plenty of water to allow ships of the largest class to load afloat at the Mill Company's Wharves.

The Mill Co. are now prepared to manufacture to order all kinds of

ROUGH LUMBER,

T. & G. FLOORING;

Boards & Planks

Surfaced on one or both Sides,

SHIP & DECK PLANK,

TIMBER

From 6 inches to 20 inches,

Square Planed out of Wind

ON ALL SIDES.

Having adopted the best known modern Machinery, the Mill is capable of making Lumber of all dimensions with great accuracy, and the Company are determined to supply the best qualities of both Rough and Dressed Lumber which will be trimmed to any and all lengths required from 12 to 80 feet.

The Mill Co will also furnish

Cargoes of Piles & Spars

AT THE SHORTEST NOTICE.

Orders for Cargoes, which will be sold at the lowest market rates, are solicited by

J. G. JACKSON & CO.,
Agents for the

IODINE WATER.

IODINE WATER IS THE MOST IMportant discovery of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS & GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless, until Dr. Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton of this city, and Prof. Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioners (see "American Medical Monthly," July 6, 1856, page 76.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, &c.

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increasing the appetite. In cases of Dyspepsia, Emaciation and Debility an increased nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.

Full directions accompany each bottle.

FRY'S HOTEL,

Arlington Farm, North Saanich,

18 MILES FROM VICTORIA.

THE ABOVE WELL KNOWN SPLENdid property is offered at private sale, consisting of a large first class Hotel with extensive Out Buildings, Barn and other farm buildings, &c., together with 408 acres of the best Farming Land on the Island—beautiful water frontage, &c. 100 acres of land are under cultivation. There are over 200 acres of rich open prairie. A belt of fine Oak is also on the place. The entire farm is surrounded by a double rider ring fence, recently constructed at a great expense. Government contracts are now out, and in two or three months a fine macadamized road will be completed direct to the house. The Hotel and farm are now under lease to Henry Fry, Esq., and the lease has a further term of 4½ years to run. To capitalists this investment offers great inducements, as there can be no doubt that at the expiration of the present lease the property will be worth three times the amount now asked for it; independent of which there is every indication of the existence of Oil Springs on the estate and it is believed that the whole of the prairie will ultimately prove to be one vast Coal Bed.

THE SUFFERER'S BEST FRIEND!

HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach, and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These pills are purifiers, alteratives and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesome effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females, of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength, and Vigor.

Whenever persons find themselves in that state termed "a little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Coughs, Colds, and Asthmatical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectively twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effective remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air tubes, and assist in dislodging the phlegm which stops up the air passages. This treatment has proved wonderfully efficient in not only curing old settled coughs and colds, but asthma of many years' standing, and even when patients who were in so bad a state as not to be able to lie down on their beds lest they be choked by phlegm.

Derangement and Distension of the Bowels, Flatulency, Diarrhœa and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to printed directions; delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels, and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet at certain periods it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands and husbands their wives, never to go to bed a second night if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and remove all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Stone and Gravel
Asthma	Dysentery	Jaundice	Secondary Symptoms
Billious Complaints	Erysipelas	Liver Complaints	Tic-Douloureux
Blotches on the Skin	Female Irregularities	Lumbago	Tumours
Bowel Complaints	Fevers of all kinds	Piles	Ulcers
Colics	Fits	Rheumatism	Venereal Affections
Constipation of Bowels	Gout	Retention of Urine	Weakness, from whatever cause
Consumption	Head-ache	Scrofula, or King's Evil	&c., &c.
Debility	Indigestion	Sore Throat	
	Worms of all kinds

THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad.

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.

Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France.

Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

DR. HOSTETTER'S

STOMACH BITTERS.

THE OPERATION OF THIS PALAtable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutricious blood, and nutricious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and the other fluids of the body purified?

Dr. Hostetter's Stomach Bitters.

Will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured, strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

COLONIAL SECRETARY'S OFFICE,
New Westminster,
2nd June, 1864.

IN PURSUANCE OF CERTAIN RESOLUTIONS of the Legislative Council, passed during the late Session, the Governor has authorised the following Premiums to be offered, with a view of developing the resources of, and stimulating industry throughout the Colony.

1. A Premium of Five hundred pounds (£500) to be paid to any person or persons who shall be the first to show, to the satisfaction of the Government, that he or they have successfully worked, by machinery, a vein of quartz producing either gold or silver, within the Colony of British Columbia.

2. A Premium of Five hundred pounds (£500) to be paid to any person or persons who shall be the first to show, to the satisfaction of the Government, that he or they have successfully worked any Coal Mine, within the Colony of British Columbia, and have bona fide produced from such mine two hundred (200) tons of good coal, and have shipped the same to any Port beyond the limits of the Colony.

3. A Premium of Five hundred pounds (£500) to be paid to any person or persons who shall prove to the satisfaction of the Government that he or they have been the first to complete, in a bona fide manner the building of a vessel within the Colony of British Columbia, of not less than five hundred (500) tons burthen.

4. A Premium of Five hundred pounds (£500) to any person or persons who shall prove, to the satisfaction of the Government, that he or they have been the first to discover any new alluvial mining district sufficiently extensive to give remunerative labor to five hundred (500) men, for a period of not less than six (6) months.

The Governor in Council to be the sole judge as to whether any of the above premiums are to be awarded.

By His Excellency's command,
ARTHUR N. BIRCH,
je10 2m Colonial Secretary.

THE NEWS.

The steamer Pacific brought no later Eastern dates than our special express by the Anderson. The intelligence is up to the 27th ult. from New York; and to the 25th from the field of battle before Petersburg. In our last article on the war we gave a short *resume* of the Federal operations up to the 19th. At that time the last of the outer defences had been taken by Burnside, and the Federals were getting into position to shell the city. Nothing of importance had taken place until the 22nd, when the Northern troops met with a serious disaster near the Weldon Railroad, losing in the conflict 1,000 prisoners. It appears that in the formation of the Federal line a gap was allowed, by some blunder, to exist in the left, which was taken advantage of by Hill's Confederate corps, which rushed into the empty space and attacked the Federals in the rear. A panic ensued, and the Federals precipitately retreated, leaving their rifle pits, four cannon, and a large number of prisoners in the hands of the enemy. Towards sunset, however, the Federals advanced, retook the position, and with it a large number of prisoners. The Confederate loss is put down at one thousand, but the Federals must have suffered much more heavily. In the following days and up to the 25th, the Federals seemed to be successful in their movements. Several assaults of the Confederate forces were repulsed with heavy loss, and the city was undergoing rapid demolition from the shells of the Union batteries. One of the most desirable objects in the Federal operations around Petersburg has been attained—the possession of the Weldon railroad, south of Petersburg. The Confederates, under Hill, contested the point desperately, but they were ultimately driven back several miles, and the Federals are now in an intrenched position, and hold the line of road. As Petersburg is just at present an absorbing point of attention to those who are interested in the movements of the respective armies, a description of the place, taken from an exchange may not be uninteresting. It is situated in Dinwiddie county Virginia, on the east bank of the Appomattox, at the crossing of the Great Southern Railroad, twenty-two miles south of Richmond, and ten miles from James river, at City Point. In a military point of view, it holds about the same relation to Richmond that Jackson did to Vicksburg in Grant's Mississippi campaign. An enemy posted there, would vex the rear of an army attacking Richmond on the south side of the James, and the position also commands a great line of supply. Petersburg is the third city in Virginia in population, having had, in 1860, about 18,000 inhabitants. Vessels of one hundred tons can ascend the river to the city wharves, and those of larger size to Fort Waltham, six miles below. Previous to the war, large quantities of tobacco and flour were exported from this place. The city has also factories and foundries which have been of great service to the enemy. On the west bank of the river is a suburb called Pocahontas. Petersburg was the principal depot of the slave trade between Virginia and the cotton States."

The plan of Grant's operations is gradually unfolding itself. With a large force around Petersburg, keeping the Confederates in that quarter exhausting themselves with repeated attempts to check the indiscriminate assaults of the Union troops—with the railway north and south of Petersburg seized and held by the Federals—and with Lee kept continually on the *qui vive* at Richmond, not knowing the minute, nor the quarter in which he may be attacked by a large concentrated force of the Northern troops, Grant is evidently master of the situation.

Hunter, it would seem, having destroyed the Lynchburg lines of communication has at length reached Grant, and was with Sheridan at White House, just in time to participate in the repulse of a Confederate attack on that old base of operations; the Federal general Foster has moved his troops north of the James river, within nine miles of Richmond, and intrenched himself; and to make matters more threatening, the Federal guns command the railway between Petersburg and the Confederate capital; so that although Grant's forces are still assaulting Petersburg, Richmond is by no means out of even immediate danger. Fully the half of Lee's army is at present in the vicinity of Petersburg. The possession of this place is indeed only second in importance to that of Richmond itself; and the determined energy with which the Northern forces have attempted, in defiance of the scientific but slower mode of attack by sap, to take the place by assault, would lead us to the conclusion that it must shortly fall. Already the city is rendered uninhabitable by the shelling, and the only great obstacle to the Federal occupation is the possession by the Confederates of the heights that overlook the city—a position that must be taken before the Federals can hold the place. Up to the 19th of June, the Northern army had taken twenty-eight guns, and 2,500 prisoners. Since that period, probably a thousand more prisoners may be added to the list. The loss of the Federals up to the latest dates since Grant changed his base, is 10,000 men—a large number, truly, but nothing when compared to the carnage at Wilderness, or some of the battles that took place north of Richmond. It is asserted in the despatches that the Confederates have lost in an equal ratio in these engagements around Petersburg; but we do not think so. They may have probably lost more prisoners than the Federals, but in killed and wounded, the intrenched belligerent cannot be supposed to suffer in anything like an equal proportion with the assaulting columns. Grant's position, however, as we have previously maintained, is a most threatening one, not only to the Confederate occupation of Virginia, but to the safety of Lee's command; and the destruction as well as possession, of the important lines of railway running south and west, makes the Southern tenure of the State every day more frail.

THE UNDERSIGNED GIVE NOTICE that the above-named corporation has been organized for the purpose of carrying on the Banking and Exchange business, in all its branches, in this city and with the interior of this State, the neighboring State and Territories, and with Mexico; also with the Atlantic cities, Europe, China and the East Indies; for which they are provided with ample facilities, and in conformity with the articles of association will commence operations on the 5th day of July next, at the banking-house now occupied by Donohoe, Ralston & Co, corner of Washington and Battery streets.

With the view of giving to the business of the corporation all the efficiency and promptitude of a private banking firm, together with that confidential seclusion of private business matters so generally desired, the immediate management of its affairs is committed exclusively to D O Mills and Wm. C. Ralston, as President and Cashier respectively, to whom, or either of them, the customers of the Bank will apply on all business matters. The regular meeting of the Board of Trustees will take place monthly.

We undersigned deem it advisable to call particular attention to the following peculiarities of their organization, which are positively binding on all its members:

First—Sales of its Capital Stock can be effected only after due appraisement by Stockholders selected for that special purpose; and the Trustees of the Corporation have, in all cases, the right to become purchasers of the stock appraised at the appraisement, for the benefit of the remaining Stockholders. This restriction is printed upon each Certificate of Stock.

SAN FRANCISCO MARKET.

MONDAY, June 27—1 P. M.

The *Bulletin* has the following:—

The markets for Flour and Wheat are decidedly dull; prices, however, are unchanged. Barley is lower; at all events the market is weak. New has been sold at $3 10; we quote old, $3 25@3 37½. Potatoes and Hay remain about the same as at the close of last week.

Fruit arrives freely. Peaches of choice quality are selling to-day at 10c ₱ lb. The tendency of the market is to lower prices for Fruit generally. Heretofore supplies have been limited and values too high for general consumption; now, every one can enter the market as consumers.

The *Alta* says:

Breadstuffs and feed grains have met with fair demand, but the market closes dull, with a tendency to lower prices for some descriptions. We quote closing rates for Wheat at $2 70@$2 75 ₱ 100 lbs for milling; Barley at $3@$3 25 for new, and $3 25@$3 40 for old brewing; Oats held nominally at $3, but no sales making; the last transactions reported were at $2¾ for best quality.

THE FRUIT MARKET.—Messrs. Addison, Martin & Co., of the Pacific Fruit Market, furnish the following quotations of prices of the leading articles of fruit now coming forward: Apples, 6 to 15 cents per pound; apricots, 20 to 30; pears (cooking) 5 to 10; pears (table) 10 to 20; plums, 15 to 40; peaches, 30 to 40; cherries, 60 to 81; red cherry currants, 35 to 50; figs, 25 to 50; strawberries, 20 to 40; raspberries, 10 to 15; blackberries, 20 to 30; gooseberries 12½ to 20; oranges, $4 to $5 per hundred. Apples and peaches are coming in freely. Another week will give a full supply of plums.

CONSIGNEES.

Per bark D M HALL, from San Francisco—Cassamayou, Order, W H Oliver, E Marvin, H B Co, Langley Bros, A Fellows, Curtis & Moore, Siffken Bros, Pierce & Seymour, Anderson & Co, R Doherty, J Goldsmith, Sporborg & Rueff, Guild, David & Co, L'Hotelier, Corbiniere, Mequade, Pickett & Co.

BEWARE OF INDIANS.—We learn that a boatman by the name of Mac having crossed the ferry about 9 o'clock on Wednesday evening, missed his dog, and commenced instituting a search for the animal among the Indian habitations. He charged some Indians, whom he suspected, with having the dog in their possession, and was thereupon struck on the back of the head with a club, and also cut near the eye with a knife. The wounded man escaped into the brush and concealed himself, while the Indians made search for him. He afterwards crawled towards Bland's Half-way House, on the Esquimalt road, where he lay until aroused by vehicles proceeding to the steamer.

FOURTH OF JULY ON PUGET SOUND.—We are informed that there was quite a large gathering at Whidby's Island on the Fourth. From 400 to 500 people sat down to dinner at Harrison's, and horse racing on Smith's Prairie, with other amusements, were indulged in. A ball took place in the evening, at which some 200 persons were present. At Utsalady another ball was given, which was attended by about 100 votaries of Terpsichore.

THE CHRYSOLITE SCANDAL.—The case of Parsons *v.* Capt. Varian, of the ship Chrysolite, for alleged abusive treatment of a passenger, came up in the police court yesterday. Mr. Wood, counsel for the plaintiff, asked the magistrate to postpone the case for a day, as preliminaries had been entered into for a full adjustment of the difficulty, and he hoped the case would not be brought up at all. Mr. Pemberton granted the postponement.

PROROGATION OF THE HOUSE.—His Excellency the Governor will formally prorogue the House to-day at one o'clock. We understand that a detachment of the Victoria Volunteer Rifles under Captain Lang will act as a guard of honor. There will doubtless be a number of spectators in attendance.

THE JENNY JONES.—Captain Jones has at length got through his troubles and would leave Portland on Wednesday, or the day after, with a full cargo consisting for the most part of grain and feed consigned to Messrs. Lowe Bros., Lenevue and others.

POLICE COURT.—Fred. Payne, on a charge of selling liquor without license, was remanded for a day to procure a witness. A man named Brickon was fined $15 or one month for assaulting a klootchman.

THE BOISE MINES.

From several returned miners from Boise who were passengers on board the Pacific, we gather that in Idaho, late Bannock City, alone, there are at present about 20,000 souls, and numbers are still constantly arriving, allured by the reported attractions of the country. Out of these an immense proportion are without employment or means of support, and consequently there is a great deal of distress already prevailing. Many who have expended their small capital in reaching that distant region, only to be disappointed in the golden visions which they had realized, and cannot do any good for themselves, would gladly leave had they the means of doing so. We understand that at least fifty Caribooites proceeded up there during the rush, all of whom purpose making their way back before the fall. We give these statements without the least wish to detract from the merits of that section of country, for we are satisfied from the various accounts, that the precious metal is not only abundant, but is widely scattered over a large section of that country, but, unfortunately, water, that indispensable accessory to mining operations, is so scarce, that but few are enabled to work to advantage. On Elk, Moore's and one or two other creeks, some of the fortunate ones who could obtain water for washing were taking out pay. The maximum day's work, however, is only about $20 to the hand; and our informants state that many are not making more than half wages, or $3 a-day. There is no doubt that eventually water will be brought from the Payette River, a distance of about 40 miles, and Boise will then possess good placer diggings. The whole section is said to abound in excellent quartz ridges, which will ultimately prove good investments for those who have located lodes and are putting up crushing mills. At the present time, however, the country is completely overrun, and a great stampede is inevitable. Many, it is thought, would leave for Kootanais.

NO EUROPEAN FREIGHT.—The steamer Pacific brought no through European freight yesterday, to the disappointment of those of our merchants who import via Panama. The cause of the omission was doubtless the accident to the Golden Age. It is feared that this will prove another case of general average.

THE NEXT MAIL STEAMER—will probably be the John L. Stephens, and will doubtless have left San Francisco yesterday afternoon at 4 o'clock; she may be expected here on Thursday morning next.

☞ Several ships were sighted by the Pacific off Cape Flattery on Wednesday evening. Two or three appeared to be bound in.

THANKS to Messrs. Hibben & Carswell for English and California papers.

OUR LONDON LETTER.

LONDON, May 21, '64.

THE CONFERENCE.

You will not perhaps be surprised to learn that since I last forwarded you the latest intelligence as to the proceedings of the Conference, nothing has been done. There have been three meetings in all, and the result is—*as you were!* The next, and in all human probability, the final meeting, is to take place on the 28th, when "the powers that be" will have to determine whether the war shall not at once be terminated by a manifestation of much greater decision than England, France, and Russia have yet evinced. Hope still prevails, at least in our own country, that "a consummation so devoutly to be wished," may be realized; but truth to tell, I should only be deceiving you were I to assert that there is any likelihood of its being so. Prussia has rushed so recklessly into the conflict, and her army has carried all before it with so much brutal success, that she is resolved to hold what she has stolen, and to inflict the utmost damage upon the unhappy districts that have been overrun. In spite of the only decision come to at the last meeting of the Conference on the 19th, she is still exacting forced contributions, and paying no more attention to the arrangement for a suspension of arms than if it had never been made at all. She, in fact, defies our own country, and believes she may continue to do so with impunity, because there is neither firmness in our councils, nor determination in our actions. The other day, the Channel Fleet was ordered, as I informed you, to the Downs, and Lord Clarence Paget assured the House of Commons it was ready to go any where in 24 hours! The Prussians, and Austrians too, laughed outright at the noble lord of the Admiralty, having spoken such "brave words," and immediately replied by their organs, that such "words" might be quite true, but the fleet would not on any account whatever, be sent to the Baltic. AND THEY WERE RIGHT, inasmuch as just before the Conference met at its last sitting, orders were sent to Deal that steam should be got up at once, and that *Plymouth* would be the destination. At Plymouth the fleet now lies, quietly ensconced within the Sound! Earl Russel, who has so often threatened—on paper—"to do and dare" such things as would speedily bring the belligerents to their senses, is said to have been the first to propose this less than 24 hours voyage, because it might be inconvenient whilst the Conference was in deliberation, for the fleet to be so near the seat of war as the Downs. What the consequence of such trimming has been is now seen. Matters are not a bit more forward now than they were a fortnight ago; for anything like a settlement which will restore the hope of peace to Europe seems to be as far if not further off than ever, the disposition of all parties except those acting in England's behalf being to postpone everything to the Greek Calends! Prussia and Austria in the meanwhile continue to defy everybody. France intimates through recognized Imperial organs that the "hitch" might be at once removed were a change of Ministry to take place in England, since it is impossible to make anything of the present holders of office, their vacillation and cowardice being incompatible to all parties but themselves. This event compassed, Louis Napoleon would have no difficulty in re-establishing the *entente cordiale* which Earl Russell has so needlessly weakened. Questions put to Lord Palmerston in the House of Commons last evening—the first occasion of his appearance there after his recent illness, were neither frankly nor courteously answered. To Listen to Ministerial replies, whether those replies are given by the chief or any of his satellites, is more than enough to confirm the growing impression that those who enjoy the cares of office have either no hope of a peaceful solution of the war difficulty or that they are wholly indifferent as to final results. The fact is they are at their wits end. If there be any higher influence at work which resists all concession to Denmark and gives every adherence to Germany, they dare not as it seems say so, but if the idea of the existence of that influence be exaggerated nothing can be more contemptible than that they should neither do the utmost that may be done to restore amicable relations nor permit any one else to do so. The complication is so great that nothing short of an immediate

CHANGE OF MINISTRY

can solve it; and to that conclusion the Government is rapidly drifting and must come at last, the sooner the better being the general verdict, wherever party spirit does not override national feeling. It is not merely the Danish war question alone which is hastening on this inevitable result. "There is treachery" in the Ministerial camp. That Lords Palmerston and Russell have never been *en rapport* with anything like cordiality everybody acquainted with the state of parties, well knows. Their antecedents towards each other forbid that they should do anything else than distrust one another. Their differences, however, are as nothing towards making ministerial arrangements as unsatisfactory as they well can be, compared with the positive danger

MR. GLADSTONE

is to them. No sooner has Lord Palmerston the misfortune to be laid up with an attack of gout to which he is now constantly liable, that the erratic member for the University of Oxford seizes the opportunity to frighten his Whig allies and to startle the country. His last escapade has, however, placed him quite in a new light before the political world. Last Wednesday week there was a morning sitting of the House of Commons. The measure under discussion was a bill brought in by Mr. Baines, member for Leeds to extend the franchise to boroughs, the £10 suffrage to be superseded by a £6 qualification, which would be tantamount to "universal suffrage" in the country boroughs and cities, as £10 already is within the metropolitan parliamentary districts. Mr. Gladstone supported Mr. Baines' measure, and delivered himself of such extreme Radical utterances as to make the hair of Sir Geo. Grey, who sat beside him on the Treasury Bench, literally "start up like quills upon the fretful porcupine." A deputation of working men had gone up to him a few days previously to expostulate with him about Garibaldi being sent out of the country so suddenly; but in the course of the discussion he told these specimens of the "great unwashed" that they would hear in a few days what his feelings were towards them as a class. His speech was therefore premeditated, however quietly he had kept his purpose from his colleagues, who might, like Sir Geo. Grey, well "stare aghast" when they heard him "in rounded periods" and "elegant language," which no one than the Chancellor of the Exchequer knows better how to use, advocating a further extension of Parliamentary Reform, the right of every man not incapacitated by personal unfitness to be admitted to a share in the franchise, and that he considered the intelligence of the working classes entitled them to immediate political recognition and relief. Mr. Gladstone may be right or wrong in opinions such as these; but he did not join his colleagues, or become a Cabinet Minister or a Privy Councillor on such terms; therefore is he looked upon, even on his own side of the House, as a dangerous innovator. To those who know Mr. Gladstone best, it would be no wonder were he to attempt to assume office as Premier, with Mr. Cobden as his Foreign and Mr. Bright as his Home Secretaries! A more extraordinary scene than that which the enunciation of such views occasioned has rarely been witnessed in the House of Commons. Immediately after the sitting, M. Pa of all shades of politics might be met with in the Clubs talking and gesticulating under the strongest excitement. Mr. Gladstone since this memorable day, has not said another word; but "he has made his game," which at all events will prove to be at least a losing one for some time to come. But what shall be said of the vanity or happiness of a Cabinet where there is one such member always on the alert to do mischief? Lord Palmerston cannot lie upon a bed of roses, and doubtless it is but too true that the outburst of his most brilliant colleague's hitherto pent up sentiments has been mainly the cause of the slowness of his return to convalescence.

[Our readers have the benefit of both sides of English politics. While our London correspondent speaks the sentiments of the Conservative element, we, like the great bulk of British colonists, adhere to the more liberal and progressive party. We cannot therefore, of course, endorse the above expression against Mr. Gladstone, and the great names coupled with that distinguished statesman.—ED. COL.]

THE PRINCE OF WALES.

The Prince of Wales has added greatly to the popularity he deservedly enjoys by presiding on Wednesday the 18th instant, at the annual dinner of the Literary Fund. The manner in which he spoke to every toast was as admirable as the choice of his language was neat and elegant. He made an immense impression, and reminded so many of his hearers of his father's staid manner, and the deportment of his mother, that he could not fail to "gather golden opinions." On every hand his well-deserved popularity increases. I cannot give you even an outline of his Royal Highness' speeches, but I send you a London journal in which the pith and marrow is fairly reported, the perusal of which I am confident will create as much pleasure in your colony as it has excited throughout the mother land.

THE QUEEN.

The Queen, I regret to say, has left England for Balmoral, where she is far away from subjects who dearly love her, and who lament the disposition which induces her almost wholly to withdraw herself from the public gaze. Before leaving for the North she came suddenly up to town from Windsor and held a Court at Buckingham Palace, but the notice given was so short that very few of the nobility were able to attend. The determination, however, not to give up one iota of her privilege was curiously instanced at the first State Concert of the season, on Wednesday the 10th instant, when the guests who were earliest in their arrival at Buckingham Palace literally found no one to receive them; the invitations from the Lord Chamberlain's office having positively included both the Prince and Princess of Wales, who came late, and made no pretensions whatever to receive her Majesty's visitors who thus paid their respects to her in her absence. All this is looked upon with a considerable degree of fear, as well it may, and is attributable not to Her Majesty herself, but rather to those, unfortunately, about her, not one of whom attempts to dispel her morbid feelings, but rather lead themselves to cherish and foment a disposition which must, if continued, wean the affections of her subjects from her. Her Majesty will return in about three weeks from Scotland, *but not to London.* Osborne, in all probability, will be occupied during the whole summer.

THE WAR OFFICE.

"A pretty kettle of fish;" there has been in this department. The extravagance of young Government clerks has long been proverbial, but there was no idea till a week or two ago that gambling constituted a principal feature of their occupation during business hours. Such, however, is proved to have been the fact, and what is worse there has been cheating of the worst description going on, loaded dice having been used, by which one or two of the seniors have fleeced the juniors pretty considerably; the consequence of which is that two of the former, in receipt of excellent salaries, have been dismissed in disgrace, and several others put back upon the list for promotion, and deprived of every privilege to which their position hitherto had entitled them. Lord de Grey Ripon has acted with great spirit and determination, and has showed an amount of feeling that redounds greatly to his credit. Other chiefs of this department may have winked at this prevailing vice, but he has done his best to "scotch," even if he has not been able utterly to "kill it."

GARIBALDI.

The great Italian liberator has arrived safely at his island home, and is once more in peaceful retirement amongst his goats and onions. The *furore* respecting him has long subsided; and the indignation at his departure has also vanished. The whole affair has been here but a "nine days' wonder;" but it is far from being so with Austria, whose leading ministers have been so exasperated as to go very far beyond the bounds of prudence and common sense, because of the triumphant reception of their gallant foe, as well as by the shouts of enthusiasm with which the intelligence was received in the House of Commons, that a small Danish force had thoroughly licked a large Austrian one, on the 9th inst., off the mouth of the Elbe. The plucky spirit of the Danes having resulted in their compelling the Austrian commander to "cut and run," and make the best of his way into British waters off Heligoland, appears to have given not half the annoyance at Vienna that the reception of the news here occasioned. For our very natural ebullition of feeling we are to be sooner or later punished. To which we reply, "only let them try it on, that's all!"

THE VOLUNTEER MOVEMENT

Will have another great stimulus applied to it on the 28th, next Saturday. The metropolitan force, combined with several others from the adjacent provinces, are to be reviewed on that day in Hyde Park, by the Prince of Wales. The day, if fine, being that on which Her Majesty's birth-day will be kept, is to be made a general holiday.

This is but a dull letter, I fear, but there is very little stirring just at present, though we are in the very height of the season.—Pleasure alone is rife, in spite of heat, which up to last night, when a tremendous thunder storm cleared the air, had driven the thermometer up to 80 and 83 in the shade! The heat set in on Whitsunday, and has continued till this morning without intermission. The prospects of the hay crops, and for the harvest are most cheering and satisfactory.

REDUCTION OF THE RATE OF DISCOUNT.

The Bank of England reduced its rate of discount on Thursday, from nine to eight per cent., and yesterday the Bank of France brought its rate down to seven per cent.

Consols—closing prices—for money, 91¼ to ⅜. For account, June 8, 90¾, ex dividend.

PRUSSIAN BRUTALITY.

The latest intelligence from Denmark, which has just been published here, is that the Prussians continue to enforce their exactions in Jutland from the inhabitants, refusing to pay for such commodities as they demand, and conducting themselves in the most brutal manner, and that too in spite of the agreement come to at the last sitting of the Conference, that neither Prussians nor Austrians were *lever des contributions de guerre*, nor to refuse *payer tout ce qui serait fourni aux troupes Allemandes.* The Prussian generals in their proclamations, wholly ignore all reference to these stipulations, and whenever the poor oppressed natives urge that the latter direction is unfulfilled, they are told that payment will be made in bonds, which will be discharged—*when the war is over!* It is also asserted by the *Times'* correspondent at Copenhagen, that the Prussians are busily engaged in levelling the fortifications at Duppel, in order the more easily to concentrate their fire upon the Island of Alsen. This too is in utter contravention of the stipulation, that during the suspension of hostilities the belligerents *Finterdisent de renforcer leur positons militaires.* Would they dare to act as they are doing, had the Channel Fleet been sent to the Categat, instead of to Plymouth Sound? The day of reckoning cannot, however, be far off, and just will be its retribution when it arrives, both to Austrians and Prussians, no less than to the British Government!

DENMARK NEWS.

Austria has still further reinforced her squadron in the North Sea, in spite of the blockade of German ports being raised by Denmark, agreeably to the terms insisted upon at the last sitting of the Conference. Thus the plot thickens on all sides, and our humiliation is well nigh complete.

CHANGE OF MINISTRY.

A rumor of several changes in the ministry has been rife all the morning; but nothing confirmatory has been suffered to transpire. That we are on the eve of another "shuffle of the pack," or of a total break up, is generally believed.

No telegrams (Reuter, or otherwise) of any moment, have come to hand this afternoon, so you must take this as the latest.

ADDITIONAL FROM CHINA.

From the S. F. *Bulletin.*

By the schooner Alice, which arrived here on Saturday night from Shanghae, 37 days out, we have correspondence given in another column, and files of the North China *Herald* to 7th May, from which we compile the following:

THE REBELLION—REPULSE OF GORDON.

Gordon had sustained a severe reverse before Changchow, involving a loss of 360 men and 27 officers killed and wounded. He arrived before that city on the 14th April, and found about 30,000 Imperialists encamped before it. With their aid, he rapidly carried all the outworks which remained in the hands of the rebels, and had by the 27th, made a practicable breach in the city wall. The Imperialists had attempted to storm on the previous day, but had failed through some short coming in the bridges, which, however, was afterwards remedied; and it was arranged that another assault should be made by the latter and the disciplined troops simultaneously, at different spots. On advancing to the attack it was found that the bridges had mysteriously disappeared during the night. The Imperialists were, consequently unable to cross the creek, and the defenders were able to concentrate their whole force to oppose Gordon's troops, who, after a severe struggle, were driven back in confusion. The Imperialists having replaced their bridges, a second assault was made on two opposite sides of the city, simultaneously, in the afternoon; but the fire of the defenders was so heavy that the manderin troops could not be induced to mount the breach, and the brunt of the fight again fell on Gordon's men. The latter succeeded in gaining the top of the wall, and maintained a desperate struggle for about 20 minutes. The rebels, however, defended themselves with the fury of despair, and at the end of that time, despite the exertion of their officers, the stormers allowed themselves to be driven back to the foot of the breach, and the assault had to be abandoned. The loss of the rebels was also very heavy. The dead were said to have lain in heaps around the breach. Gordon retained his position before the city, and intended to sap the walls.

Advices from Ningpo state that the Chekeang authorities contemplated reducing the disciplined contingents in that province, and had discharged the Cantonese gunboats which were employed at the siege of Hangenow. Thus, while they deprived themselves of the means of repressing piracy, they were taking steps to increase it by discarding a fleet of boats, whose crews would certainly resort to that means of gaining a livelihood, so soon as they had lost regular employment.

PORTUGUESE THEATRE AT SHANGHAE.—An excellent theatre has been got up by the Portuguese community, the opening performance at which was given on the 18th of April.—The arrangements, the costumes, and acting, were all good.—*Herald.*

From Japan.

The latest news received at Shanghae from Yokohama was favorable to the continuance of friendly relations with the natives. The government appeared to have decided on abandoning its hostile attitude. Indeed the Mikado denied that he authorised the steps which had been taken in his name to annoy foreigners.

The Prince of Satsuma had entered largely into silk speculation, much to the disgust, it is said, of his class, who consider trade as degrading in the extreme.

The government had determined to reduce to order the Prince of Chosew, who had almost completely stopped the trade through the inland sea, by destroying vessels which had on board produce destined for the foreign market.

CALIFORNIA.

THE "AQUILA" AND HER CARGO.—It has been stated that the entire cargo of the Aquila was discharged, but we learn that this is a mistake. She still has 400 tons freight on board, including the engine and heavy timbers of the Comanche, as we learn from the stevedore. The Aquila is now in charge of a brother of Capt. Marriit, who was sent out from New York as diver etc., and who has lately returned East. 900 tons of mud have been discharged from the vessel, and 400 tons more of the same precious material are estimated to be yet on board—making 800 tons of mud and cargo yet to be discharged. The timbers of the Comanche will require to be handled with much care. It will probably take three weeks more to get out the remaining cargo from beneath its heavy covering of mud.—*Bulletin.*

THE FRUIT MARKET.—The prices of fruit, which have heretofore been exhorbitant, are coming down to reasonable figures. Peaches that on Saturday were selling as high as 40 cents per pound, have tumbled to 10 cents by the box, or less. A large lot of very fine ones has been received from Briggs and Haskell of Marysville. Strawberries have fallen to eight cents. Excellent pears and apples have been received, and are selling low for the season. Good fruit of all kinds can now be had, and will soon be abundant and cheap. It need no longer be a tabooed article to the little folks, or big ones either for that matter.—*B.*

APPREHENDED.—A half-breed Californian, or Mexican, says the Los Angeles *News*, has been arrested in San Luis, Obispo county, charged with the murder of the brothers Williams and their vaquero. The murderer had been hired as a herder, by the Williams' a day or two previous. The murder was committed just inside the Tulare county line. The victims were killed by an axe, while sleeping, and the murderer, possessing himself of the horses, clothing, etc., went into San Luis, Obispo, and was immediately arrested and lodged in jail.

THE DECLINE IN GOULD AND CURRY.—Hentiques' *Stock Circular* for the past week says many causes are assigned in explanation of the extraordinary activity and decline of Gould and Curry stock on Saturday—when it touched $2,175, at which one hundred and twenty-two feet changed hands—but the most plausible seems to be the unfavorable character of the lode in one of the shafts sunk from the lower level. The truth of this report, however, is authoritatively denied. According to quotation, yesterday, the stock had declined to $1,860.—*Call.*

FIRE AND LOSS OF LIFE—NO INQUEST—A small frame tenement, situated on Natoma street, between Beale and Fremont, and occupied by a family named Quinn, took fire about two o'clock on Sunday morning, and Mrs. Quinn lost her life in an attempt to save her little son, aged six years, whose cries she heard when she was on the point of effecting her escape from the burning building, and returned to help him; the effort was fatal, however, and both were suffocated.—*Ib.*

The Napa *Reporter* of 25th June says—The flocks of sheep near the Geyser Springs have suffered of late from the destructiveness of grizzly bears. It is supposed they have been driven into the valleys by the scarcity of food in their usual mountain haunts, around the Geysers and Mount St. Helens, and farmers suffer nightly from their sanguinary excursions. They kill, it seems, for the love of destruction, for one man lost six sheep in a night, whose flesh remained undevoured.

MORE GUNS.—The ship A. M. Lawrence is now discharging at Mare Island, under the direction of the Government authorities, her cargo of war-making material. This consists of 49 6-inch and 10-inch Dahlgren guns, carriages for the same, and 150 tons of shot and shell.—*Bulletin.*

DEAD.—The little girl, Annie Pink, who was so fearfully burned at Maguire's Opera House during the performance of "Satanella," lingered in great agony until June 25th, when death put an end to her sufferings.

FLOUR is worth forty dollars a hundred pounds in Black Hawk and Central cities, Colorado territory, and none to be had at that. This is owing to the impassability of the roads to the mountains, caused by the late great rains. Hay sells for a bit a pound.—*Appeal.*

In Austin a woman obtained a divorce, married again, and started on a trip to Virginia city, all in the space of 24 hours

THE IRISH NEWS.—Felix O'Byrne, late of the *Flag*, is now part proprietor and editor of this paper. His salutatory inculcates loyalty to the Government under which they live, by all foreigners, of whatever nationality, residing in our midst.—*Call.*

THE Indian hunters who left Star city, Humboldt county, N. T., to punish the Bannocks, have returned. They killed eight Indians, and lost one of their own number, Cooney Rowald.—*Appeal.*

The Democratic *Press* states that Lisle Lester, editress of the Pacific Monthly, lies dangerously ill at her residence in San Francisco.

Fifty feet of Jackson street, below Davis, San Francisco, fell into the bay, carrying with it a large loaded truck and the driver.

FARM FOR SALE.—The attention of persons desiring to secure a fine farm and comfortable homestead, in the rich rural district known as the Willamette Valley, Oregon, is directed to the notice of sale in our advertising columns.

RICH GOODS.—Messrs. J. H. Turner & Co. of Fort street, have received per steamer John L. Stephens, direct from London, some beautiful and costly Honiton, Brussels, Maltese and Vals. lace handkerchiefs; also, *Foulards, Moires,* and Poplins, of the latest styles, a fine lot of feathers, and infants' and childrens' hats, bonnets and dresses, the last richly embroidered in silk. This is without doubt the largest importation of rich and costly goods ever brought into this city.

Holloway's Ointment and Pills.—For Bad Legs, Sores, and Ulcers—Many aggravated sores stand ready to pounce upon the aged when an accident weakens any part. This Ointment is most potent in curing all cases of ulceration, abscess and bad legs, after every other means had failed, and the sufferings experienced from them were utterly unendurable. Soon after the application of the Ointment, coolness and comfort are obtained in the affected part, the patient finds himself more at ease, and daily becomes more hopeful, as, with departing pains, a visible growth of granulation comes forth. It is well worth while adopting this treatment to regulate the secretions of the body by moderate doses of Holloway's Pills, which act in unison with his Ointment, and facilitate recovery.

HOLLOWAY'S OINTMENT AND PILLS cannot be too highly commended for the favorable influence they exercise over the skin. In all eruptions, inflammations, and ulcerations the detergent qualities of this unguent render it so efficacious in first cleansing and purifying the diseased part, then inducing renewed and healthy action, as to ultimately leave the service in the highest health. Holloway's Ointment works the most wonderfully beneficial results in bad legs, chronic sores, &c., by improving and quickening the sluggish and imperfect circulation, removing all corrupt matters and increasing the disposition to heal. Holloway's Ointment throws no deleterious drawback on the function of the skin; it manifestly augments its exaporation and perspiration, whereby softness and pliability supplant its previously harsh and dry state.

Holloway's Ointment and Pills—Diseases of the Skin. No case of the disease of the skin, be its nature what it may, has failed to be benefitted when these potent remedies have been properly applied. In scrofulous and scorbutic affections they are especially serviceable. Scurvy and eruptions which had resisted all other modes of treatment and gradually become worse from year to year have been completely cured by Holloway's cooling Ointment and purifying Pills, which root out the disease from the blood itself, and leave the constitution free from every morbid taint. In the nursery Holloway's Ointment should be ever at hand. It will give ease in sprains, contusions, burns, scalds and infantile eruptions, and may always be safely applied by any ordinary attendant.

INVIGORATE THE SYSTEM.—Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dispeptic stomach and a disordered liver desire to know how true digestion may be improved, the bile and other fluids of the body purified?

DR HOSTETTER'S STOMACH BITTERS.

will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.—Sold by all Druggists and dealers everywhere.

NECROSIS.

If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The PERUVIAN SYRUP gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

INVENTIONS AND PATENTS.—Each year adds almost innumerably to the list of Inventions, and still more to that of inventions which are increased by a most uncommon multiple. The fruitful ingenuity of thousands of intellects thus contributes to the comfort, convenience and profit of the community, whilst of a necessity it also numbers the victims of too flattering hope, or of too sanguine a calculation. The list of Patents, active, passive, or neutral—vital or still born, profoundative or exhaustive swells to enormous proportions, but never without more or less advantage from the faculties which it awakens or calls forth, if but for a brief interval into active play. Every invention confers some good upon the world. And those which tend to supply some great wants, or to relieve some great inconvenience, deserve at our hands so much the more commendation, that they cannot be called into existence at our bidding. Amongst those patented inventions which have appeared to illustrate this eventful year, and to figure in the great International contest of ingenuity and industry, though many be more showily represented and more conspicuously marshalled before us, none excels with more personal sympathies than that of the new Osteo-Eidon produced by Messrs GABRIEL, the celebrated Dentists of London, Liverpool, and Birmingham, (as it is evidenced by their being the only dentists chosen on the Committee of the International Exhibition), whose admirable adaption of Artificial Teeth has obtained so high an approval from the profession as well as from the public. The Osteo-Eidon as a base for sets of teeth, obviates all objections applicable to other materials, and we list firmly seated in the mouth, and free from noxious elements, dispenses with all need of mechanism, and presents an appearance not to be distinguished from that of the natural gums and teeth. Messrs. GABRIEL announce that they submit their laboratories and manufactures to gratuitous inspection during this season. As may be seen by reference to our advertising columns, Messrs. Gabriel supply Artificial Teeth and Gums on their patented system, irrespective of distance.

DR. HOSTETTER'S STOMACH BITTERS.—Wherever there is dispepsia, they are in demand. Nor is it for indigestion alone that they are a specific. Every disorder of the stomach, the liver, the bowels, and the nervous system, seems to yield to their influence. They are an antidote to pain; they regulate the whole vital machinery, and may be justly termed the strongest ally that science has ever brought to the aid of nature in her struggle with sickness.—Sold by Druggists and dealers everywhere.

HIP DISEASE.

The most that can be expected in this disease is to prolong life, with stiffness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally will almost certainly prove fatal.

Jewelry.

J. JUNGERMAN, THE WELL known Jeweler of Yates street, has, in addition to his ordinarily large and fine selection of fine goods, received by the last steamer many of the richest kinds of Jewelry, of the latest manufacture. These were imported expressly with a view to supplying purchasers for the coming spring and summer seasons. je14

APPEAL TO THE PUBLIC OF VICTORIA

THE RECENT MASSACRE BY Indians of Mr. Waddington's working parties on the Bute Inlet Trail is, of course, fresh in the minds of this community, but it may not be generally known that its result, besides the sad destruction of human life, involves an almost ruinous pecuniary loss to Mr. Waddington, in the pillage of his stores, &c., as well as the stoppage of the work on the trail, which at the time of the melancholy event had so nearly approached completion, that but for the unlooked for interruption the trail would, in all probability, by this time have been opened as far as Benshee Lake on the Bentinck Arm trail to Alexandria, and would have been realizing at least a small return on the large capital expended upon it.

The fact that the Bute Inlet trail when opened would divert a large portion of the freight for the Upper Country and mining districts of British Columbia from the Fraser River route, has no doubt excited the jealousy and active opposition of the inhabitants of New Westminster, and has led to the rejection by the British Columbian authorities of Mr. Waddington's respectful, and as he believes justly founded claim on the Government for the destruction of his property; and reduces him to the necessity of appealing to the people of Vancouver Island for aid to complete this important public undertaking on which he has expended so large an amount of his private means that he is unable to furnish the comparatively small sum required for that purpose, in default of which he must necessarily abandon the enterprise and sacrifice all the capital already invested in it.

It is universally admitted that the Bute Inlet trail would be the shortest, cheapest, and best paying to the Upper Country and mining districts of British Columbia, and as there are now animals, implements, tools, and six weeks provisions for at least twenty-five men on the ground, it is estimated that it can be opened as far as Benshee Lake (from whence the Hudson Bay Company have engaged to establish a communication to Alexandria) in the course of three months at furthest, at a further outlay of $5,000, of which it is confidently believed that the people of Cariboo will gladly subscribe a portion, and it is proposed to raise the amount by public subscription, in any sums that may suit the good will toward the enterprise, and the means of the subscribers, the same to be reimbursed in all cases, if required, with interest at the rate of one per cent. per month from the date of payment, out of the first proceeds either of the sale of the town site at Bute Inlet (of which three-fourths belong to Mr. Waddington exclusively) or of the tolls of the mule trains (to which he has an immediate right as soon as opened) or out of the proceeds of the Charter for the Wagon road, all of which property is ample security for the small amount required.

The following gentlemen have kindly consented to cooperate with Mr. Waddington as a Committee for the purpose of carrying the project into effect:

DR. J. COLLIS BROWNES

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C.S. L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

From W. Vesalius Pettigrew, M D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

From C. V Ridout, Esq., Surgeon, Egham: "As an astringent in severe Diarrhœa and an antispasmodic in Colic and Cramps in the Abdomen, the relief is instantaneous."

Chlorodyne—Vice Chancellor Sir W. P. Wood, on Jan. 11, pronounced "that it is clearly proved before the court that Dr. J. Collis Browne was the original Inventor and discoverer of a remedy well known as Chlorodyne, and so highly appreciated in India, China, &c."

Extracts from the General Board of Health London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy acts as a charm, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

Caution--Chlorodyne--In Chancery.

It was clearly proved before Vice-Chancellor Sir W. P. Wood, by affidavits from eminent hospital Physicians of London that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. See Times, Jan. 12, 1864. The public, therefore, are cautioned against using any other than Dr. J. COLLIS BROWNE'S CHLORODYNE. No home should be without it. Sold in bottles, 2s 9d and 4s 6d, by J. T. Davenport, 33 Great Russell street, London, W. C., sole manufacturer. Observe particularly, none genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government Stamp. ju24 1yw

BUCKEYE MOWER.

TO FARMERS:

WE, WITH GREAT CONFIDENCE, offer the Buckeye Machine for this reason: Knowing it to be superior to any Mower for sale, and that it will sustain the reputation it has made for the past three years in surpassing any other Mower in the following respects:

Being better Made; much Stronger and more Durable; will Run Lighter; Cut much closer with greater ease to the team, and no side draught

We can bring twenty Farmers to say the BUCKEYE is SUPERIOR to any Mower, to one who can be found prejudiced against it.

The Buckeye Mowers are of two sizes, cutting 4 feet, and 4 feet 8 inches.

The "Buckeye" as a Reaper

The important advantages which belong to the BUCKEYE as a mower are retained in the Reaper, and can be used either as a Mower or Reaper by attaching the Platform and Reel.

Though importing largely of them, we have been unable, for two years, to supply the demand.

They are better adapted to the wants of California Farmers than any Combined Machine for sale. It will adapt itself to every surface of ground, will run lighter and deliver its grain easier and better than any other Reaper. The Reaper's seat is directly over the axle of the Machine, instead of being on the Platform, where it adds greatly to the draught.

Keating's Cough Lozenges.

THIS WORLD RENOWNED MEDIcine, which has obtained such celebrity in all parts of the globe, in the cure of Cough, Asthma, Hoarseness, Incipient Consumption, and other affections of the Chest and Pulmonary Organs, is strongly recommended to all suffering from any of the above disorders, as One Trial will be sufficient to prove their undoubted efficacy, being frequently used under the recommendation of the most eminent of the Faculty.

IMPORTANT TESTIMONIAL.

MELBOURNE, Port Phillip,

DEAR SIR,—I duly received per Maitland the case of Lozenges, and have much pleasure in saying that they have met with a ready sale,—therefore, send me now the value of ten pounds, that is, double the last sent, packed in two cases with Tins, &c., as before.

The Lozenges require only to be tried, and I am sure the sale will be immense. I am not an advocate for Proprietary Medicines in the general way, but assure you that the Lozenges have done so much good in almost every case in which we have recommended them, that I believe them better adapted to this climate than anything else we have seen used.

Believe me, dear Sir, yours faithfully.

ALL CURES MADE EASY!!!

—BY—

Holloway's Ointment.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighboring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage: the most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout and Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm, and other Skin Diseases.

After fomentation with warm water, the utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach; consequently in many cases time is required to purify the blood which will be effected by a judicious use of the Pills. The general health will readily be improved, although the eruption may be driven out more freely than before, and which should be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps and all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula, or King's Evil, and Swelling of the Glands,

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system render them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure, the liver stomach and bowels being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego-foot	Fistulas	Sore-throats

BENSON'S WATCHES & CLOCKS

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clockwork on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism.—*Times*, June 11, 1862.

"A triumph of ingenuity.—*Telegraph*, March 31, 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—*Standard*, June 17, 1862.

"Some of them are of great beauty, and if the English watch trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News*, November 8th, 1862
